

DESCRIPTION

Sewer-Cide is a fast-acting sewerline opener that will attack and dissolve the toughest blockages caused by wood, grease, tar, paper, trash, mud, bags, debris, hair, and other organic matter

Never before has there been a material formulated that will activate, attack, and dissolve stubborn blockages and organic matter as rapidly as SEWER-CIDE.

BENEFITS

- Delayed reaction of the product permits it to reach obstructions before the product works
- Activates, attacks and dissolves stubborn roots and organic matter that continue to regrow
- Prolongs regrowth by between 1 -3 years

APPLICATION

FOR EXTERNAL USE ONLY. Sizes and types of blockages vary in sewers so start by pouring a small amount of SEWER-CIDE into open sewer as close as possible behind the blockage (no more than 5kg at a time). There needs to be water movement so apply hose if none. Allow product 10 minutes then run plenty of water through drain. Use at regular intervals to keep sewers open.

Do not use around open flame. Do not add hot water. Do not stand over opening after pouring.

Note: Do not contact aluminum, zinc, tin, magnesium, galvanized or painted surfaces.

SPECIFICATIONS

pH@ 25°C (ASTM-E-70)	>13.0
Color (visual)	White with aluminum pieces
Appearance @ 25°C (visual)	Free flowing powder
Odour	None
Health/Flammability/Reactivity.....	3/0/1
Personal Protection	D - Face shield, Gloves, Apron
